UTAH CONSTITUTION PARTY

PARTY OF THE AMERICAN DREAM

FRANK FLUCKIGER

WORKING THE DVD PLAN: YOUR ENTHUSIASM IS CONTAGIOUS!

Now that the precinct caucus meetings are behind us — *thank all of you so much, by the way* — many have asked me what they can do to help build the party and spread the message of the Constitution Party.

My answer is simple: *“Continue working the plan kicked-off at the precinct caucus meetings.”*

MOVING ON DESPITE THE MEDIA

It's no secret that third parties are seldom, if ever, given favorable press coverage. As one writer told us when the party was first getting organized in Utah, he was free — even welcome — to write whatever he wanted about the Constitution Party...*as long as it was negative.*

As sad as that is, it pretty much is our reality. So we simply have to accept it and move on.

And that's where our DVD plan comes in.

BUILDING ON THE DVD

Those attending the caucus meetings across the state were introduced to a DVD featuring our US Senate candidate, Scott Bradley and our three US Congressional candidates,

(Continued on page three)

WHAT LOCAL GOVERNMENTS CAN DO ABOUT ILLEGAL IMMIGRATION

Not everyone's asleep at the wheel when it comes to immigration. Here's how law enforcement may be waking up... and what you can do to help them. By Chuck Baldwin.

It should be painfully obvious to most all of us that our federal government has no intention of stopping — or even reducing — illegal immigration.

It seems all too clear that we have a president and Congress that are willing to allow foreign lawbreakers to invade our country and live off taxpayer welfare with total impunity. But there is something local governments can do. And, thankfully, several local governments around the country are already doing it.

TAKING FULL ADVANTAGE OF EXISTING LAWS

An April 14, 2006 New York Times report stated, “While lawmakers in Washington debate whether to forgive illegal immigrants their trespasses, a small but increasing number of local and state law enforcement officials are taking it upon themselves to pursue deportation cases against people who are here illegally.

“In more than a dozen jurisdictions, officials have invoked a little-used 1996 federal law to seek special federal training in immigration enforcement for their officers.

“In other places, the local authorities are flagging some illegal immigrants who are caught up in the criminal justice system, sometimes for minor

offenses, and are alerting immigration officials to their illegal status so that they can be deported.”

Well, amen! Local and state governments are beginning to see the light (and are probably feeling the heat as well). And for good reason.

A CRUSHING STATE AND LOCAL BURDEN

The brunt of the burden caused by illegal immigration is born by local and state governments. It is local communities who feel the strain of overcrowded classrooms, congested highways, packed emergency rooms, and stuffed jail cells. It is the local citizen who must bear the burden of higher

“It is the local citizen who must bear the burden of higher taxes...”

taxes to support the skyrock- of health care, education, criminal justice,

Utah's "Key Races" – A Report from the Constitution Party's National Committee Meeting

Utah's Constitutional Party is Becoming a Model for Others Around the Nation. Here's Some of What Went On at the National Meeting. By Mark Hudson.

Six delegates of the Utah Constitution Party traveled to Tampa, Florida for the CP National Committee Meeting, held April 20th to the 22nd.

This meeting is generally where party business is conducted, discussed, and voted upon. CP party leaders and delegates from across the country joined us in attendance.

TWO UTAH CAMPAIGNS SELECTED AS NATIONAL "KEY" CAMPAIGNS

One interesting piece of news was the naming of two of Utah's candidates — Scott Bradley for US Senate and Jim Noorlander for US Congress in District 3 — as national "key races."

The term "key races" refers to candidates with better-than-usual chances of being elected against high-profile incumbents.

The designation carries with it a little extra help from the national party, in addition to greater public exposure and fund raising potential.

Montana's Rick Jore was also designated a key race candidate. In fact, Rick probably stands the best chance, in my opinion, of being the Constitution Party's first candidate to get elected into a state's legislature this year.

Go get em, Rick!

INSPIRING SPEECHES

Friday night was the formal banquet event and the keynote speaker was the Constitution Party's own Jim Gilchrist of California, founder of the Minuteman Project.

The Minutemen have received wide acclaim for its cadre of volunteer Americans who attempt to defend our southern border. Jim gave a rousing speech about the defense of our liberty, our borders and our way of life. Many there were inspired.

By the way, Jim narrowly lost his own Congressional race in southern California to a Republican (who only won only after the absentee ballots were counted).

He is a great asset to the Constitution Party and brings with him national prominence and media attention.

BRADLEY IN A KEYNOTE SPEECH

Utah's own US Senate Candidate, Scott Bradley, was the keynote speaker at the Saturday training

session.

Scott's talk, "*The Original Intent of our Founding Fathers*," gave us all a better insight into what "taking the oath of office" really means.

He received enthusiastic applause from national delegates who appreciated his vast

knowledge of Constitutional principles along with the teachings of our Founding Fathers — teachings which ultimately led to us becoming a great nation.

You can feel good that Utah was well represented and presented itself as one of the best organized and most effective state CP organizations nationwide.

The Beehive State now has a full slate of highly-qualified national candidates running for office this November, as well as one of the *highest totals of local candidates* on the ballot of any state.

We're striving to grow the party in Utah. Please join us as we seek to honor God, defend the Family, and restore the Republic. •

Editor's Note: Mark Hudson is one of those highly-qualified candidates, running a key race against Rob Bishop in District 1.

UTAH SETS NATIONAL CP RECORD: 55 "STRONG" CANDIDATES FILED FOR OFFICE ON THE CP TICKET!

Pat yourselves on the back for this one: Dedicated Utahns just set a new Constitutional Party record!

Not since the Constitutional Party was founded in 1992, has 55 candidates filed for office in a given state. But that's the number Utah turned out on March 17th.

According to Constitution Party

Chairman, Jim Clymer of Lancaster, PA, not only is this the largest number of candidates to file in any state, but these Utah candidates *are among the highest caliber candidates the party has ever attracted.*

Great job, folks! This is just the kind of participation that will get our nation back where it belongs.

Now for the next step.

STRONG CANDIDATE TURN-OUT BY MONTANA CP LEADS TO REPUBLICANS CONCEDED DISTRICT

Republicans in Montana are apparently more than a bit intimidated by the sheer number of CP candidates.

It seems a record 20 CP candidates registered for a run at the state legislature in the fall.

As a result, Republicans, in at least

one district, decided against running their candidate.

Call it intimidation. Or just grim reality. Either way, the Republican party is sitting up and taking notice...and the Montana CP is making great strides. •

PARTY PLATFORM

• Immigration •

• A REVIEW OF WHAT THE CONSTITUTION PARTY BELIEVES •

We affirm the integrity of the international borders of the United States and the Constitutional authority and duty of the federal government to guard and to protect those borders, including the regulation of the numbers and of the qualifications of immigrants into the country.

Each year approximately one million legal immigrants and almost as many illegal aliens enter the United States. These immigrants - including illegal aliens - have been made eligible for various kinds of public assistance, including housing, education, Social Security, and legal services. This unconstitutional drain on the federal Treasury is having a severe and adverse impact on our economy, increasing the cost of government at federal, state, and local levels, adding to the tax burden, and stressing the fabric of society. The mass importation of people with low standards of living threatens the wage structure of the American worker and the labor balance in our country.

We favor a moratorium on immigration to the United States, except in

(Continued on back page)

(Continued from Fluckiger, page one)

Mark Hudson (First District), David Perry (Second District) and Jim Noorlander (Third District). Each candidate gave a short, inspiring talk on the DVD.

Those attending were then challenged to donate five dollars to the party for the DVD and then take it home and simply watch it. We further challenged everyone to invite receptive family and friends to their homes to watch an encore.

From there, using the principle of viral marketing, we asked everyone to invite guests to get their own DVDs and repeat the sharing cycle.

1,500 DVDS ALREADY DISTRIBUTED!

Using this approach, we've already distributed over 1,500 DVDs!

Don't worry that we'll run out. Like the Frito Lay slogan, "Eat all you want, we'll make more," we plan on keeping you supplied — we're now producing 2,000 more videos.

Make no mistake, this is an outstanding tool that does virtually *all* the work of introducing anyone to the Constitution Party and our candidates.

Which is why we urgently encourage each of you to keep working the plan. There's simply no better way to introduce others to the Constitution Party and its candidates.

ENTHUSIASM IS CONTAGIOUS

We expect this DVD networking cycle to cross state lines and, through increasing momentum, reach larger numbers of people throughout the nation.

So, at the risk of overdoing it, let me repeat my invitation:

Please donate at least \$5.00 for a DVD, watch it at home, then share it with your family and friends. The more people you have watching the DVD, the larger the crowds will be who see and hear our candidates.

To get started, simply send your donation to the Constitution Party P. O. Box 1215 Bountiful, UT 84010.

And thanks! •

(Baldwin, continued from page one)

and transportation. Rest assured, President Bush and his fellow elitists in Congress no more feel the burden of illegal immigration than retiring Exxon chairman Lee Raymond feels the burden of increased gas prices.

However, imagine what would happen if a majority of local and state governments began a concerted effort to arrest and arrange deportation for every illegal alien they discover! Well, my friends, many local officials have begun doing just that. Now, each of us should demand that all our local officials follow suit!

10 MINUTE PHONE DRILL

Each of us should call our local sheriff, police chief, city manager, county administrator, mayor, councilman, and commissioner. We should demand that they enforce the law by arresting and arranging for deportation every illegal alien that they discover.

Furthermore, there are already laws on the books that punish employers for hiring illegal aliens. We must insist that those laws be upheld and those employers be punished!

Remember, the law is on the side of the American citizen. Illegal aliens are lawless violators and must be treated as such. When American citizens break the law, they are expected to pay the price. Are illegal aliens above the law? President Bush and Congress may think so, but local and

state governments have the power to say otherwise.

"...state governments have the power to say otherwise."

If the American people will aggressively communicate with their local and state officials and insist that they put their foot down on illegal immigration, they will respond!

So, what are you waiting for? Start calling now! •

Dr. Chuck Baldwin is a minister, author, talk-show host and the 2004 vice-presidential candidate for the Constitution Party.

(Immigration, continued from page three)

extreme hardship cases or in other individual special circumstances, until the availability of all federal subsidies and assistance be discontinued, and proper security procedures have been instituted to protect against terrorist infiltration.

We also insist that every individual group and/or private agency which requests the admission of an immigrant to the U.S., on whatever basis, be required to commit legally to

provide housing and sustenance for such immigrants, bear responsibility for the economic independence of the immigrants, and post appropriate bonds to seal such covenants.

The Constitution Party demands that the federal government restore immigration policies based on the practice that potential immigrants will be disqualified from admission to the U.S. if, on the grounds of health, criminality, morals, or financial dependence, they would impose an improper burden on the United States, any state, or any citizen of the United States.

We oppose the provision of welfare subsidies and other taxpayer-supported benefits to illegal aliens, and reject the practice of bestowing U.S. citizenship on children born to illegal alien parents while in this country.

We oppose any extension of amnesty to illegal aliens. We call for the use of U.S. troops to protect the states against invasion.

We oppose bilingual ballots. We insist that those who wish to take part in the electoral process and governance of this nation be required to read and comprehend basic English as a precondition of citizenship. We support English as the official language for all governmental business by the United States. •
